

SHORT LEARNING PROGRAMME

Presented by Tshwane Institute for Continuing Education (TICE)

LIFT REGULATIONS

PURPOSE OF THE PROGRAMME:

The purpose with this Short Learning Programme (SLP) is to enable participants to develop an understanding of foundational knowledge of legislative and regulatory requirements for lift inspections and assist candidates to meet the knowledge criteria required by the Engineering Council of South Africa (ECSA) to register as a Registered Lift Inspector (RLI).

To ensure that lifts, escalators, and passenger conveyors are maintained and safe for use, South African National Accreditation System (SANAS) accredited Inspection Service Providers (who employ Registered Lift Inspectors as per regulation 9) are required to inspect such equipment regularly according to the OHS Act and regulations. ECSA implemented requirements for registration of such inspectors and approached Tshwane University of Technology (TUT) to design a SLP to address the theoretical knowledge requirements for registration of Lift Inspectors.

This SLP is recognised by ECSA who will oversee the registration of Lift Inspectors as per agreement in a Memorandum of Understanding with the Engineering Council of South Africa Lift Inspectors Registration Committee (LIRC).

LEARNING OUTCOMES:

Upon successfully completing the programme, the candidate will be:

- Able to implement, apply and maintain safety rules and regulations according to the Occupational Health and Safety Act (OHS Act) as well as the
- Able to implement relevant standards set by the South African Bureau of Standards (SABS) and as prescribed by the Department of Labour (DOL).
- SABS publishes the SANS documents.

WHO SHOULD ATTEND:

The programme is targeted at participants employed in the business of lifts, escalators, and passenger conveyors.

ENTRY REQUIREMENTS:

Participants registering must have a prior qualification of at least NQF level 4

VENUE: Pretoria (5days contact classes)

DATES: 23 - 27 June 2025

COST: R12 500.00

REGISTRATION AND ENQUIRIES:

Tel: +2712 382 4087
